- Records date & time of card swipe
- Private Memos to protect transaction data
- Fast response; less than one second
- Holds 100,000 ID records in r

## The CardDB® solution quickly pays for itself.

Many schools offer services to current students, faculty and staff, typically at a discount. Usually, an ID card is presented to obtain these discounts, but at many venues it is impossible to check the cardholders eligibility.

This is where CardDB can pay for itself, **FAST**.

Recently, Moorehead State University used CardDB to record attendance at a Student Activities Council sponsored concert. It identified a sufficient number of discount ineligible attendees to generate "several hundred dollars in additional ticket revenue which would have been lost otherwise." Office of the Director
